

2018

Conference, Workshop, Journal etc.	Title	First Author
New Dimensions for Natural Hazards in Asia: An AOGS-EGU Joint Conference, February 4-8, 2018, Tagaytay, Philippines	Probabilistic tectonic hazard assessment methodologies for high-level radioactive waste disposal in Japan	Goto Jyunichi
MIND Project Annual Meeting 3, May 7-9, 2018, Lausanne, Switzerland	R&D Plan for microbiologically induced corrosion in japan and expectations to mind	Suzuki Satoru
ICG Annual Meeting 2018, September 23-26, 2018, Yokohama, Japan	Corrosion behavior of simulated high-level waste glass in the presence of carbon steel	Takahiro Goto
ICG Annual Meeting 2018, September 23-26, 2018, Yokohama, Japan	Development of the NUMO safety case for geological disposal and performance assessment of a vitrified high-level Radioactive Waste	Katsuhiko Ishiguro
The Integration Group for the Safety Case (IGSC) Symposium 2018, October 10-11, 2018, Rotterdam, Netherlands	Development of a pre-siting SDM-based safety case - Assessment of operational hazards and an application to vehicle fire in underground facility	Suzuki Satoru
The Integration Group for the Safety Case (IGSC) Symposium 2018, October 10-11, 2018, Rotterdam, Netherlands	Development of a pre-siting SDM-based safety case - Site characterisation and synthesis into SDMs	Ota Kunio
The Integration Group for the Safety Case (IGSC) Symposium 2018, October 10-11, 2018, Rotterdam, Netherlands	Development of pre-siting SDM-based safety case - Overview	Fujiyama Tetsuo
